

Help Me Wanda Consulting will go to your office, or we will arrange to pick-up your books, and can even supply the software if necessary. We also provide simply website design.

Providing professional bookkeeping, accounting and administrative services so you can focus on growing your businesses and reaching your goals.

Why should you consider our services?

**Increase your sales**

By letting us handle the paperwork you have more time for your current customers and to acquire new customers.

**Save time**

By letting us do the paperwork you have more time for other important activities in your business; marketing, sales or new projects.

**Save money**

Maximize your resources by paying only for the services you require. We can work on a project or contract basis.

**More cost effective than doing the books yourself**

By comparing the cost of your time to do your books against someone else doing them for you, you may find that it is more cost effective to let us handle the paperwork so you can concentrate on your business.

**Make your books work for you**

Up-to-date bookkeeping and other records allow you to know how your business is doing and gauge where your business is going. With the right information, you can make much better decisions on the direction of your business.

**Manage cash flow**

With timely invoicing and aging reports you will collect receipts faster and keep better track of those who take too long to pay. With timely payments you get those discounts and keep your payables under control.

**Stay ahead of the government**

By using our services you can ensure your HST/GST/PST/WCB returns and source deductions are filed and paid on time.

**Save money at year end**

You need to file your income taxes every year and each year your accountant needs certain information. If they have to compile it then it can cost you quite a bit. However, if your books are in order for your accountant, they have less work to do; and for you that means a smaller bill.

**No more having to buy expensive software and continuous upgrades**

We have all the software necessary to do your books, word processing, and more; and we maintain the most current version.

**Mobile services**

We come to you. We can do your books right in the comfort of your office (or home).

**Our services are fully tax deductible**

Canada Customs & Revenue Agency allows you to deduct an expense if it is incurred to operate your business and the expense is reasonable. All of our services, including website design, are deductible for tax purposes.

**Peace of mind**

Become stress free knowing that the paperwork is completed, the forms are filed and you have the information you need to conduct your business.
